

present in the first and last, so that the  
 presence of a  $\beta$  particle in the  
 nucleus is not necessary for the  
 emission of a  $\beta$  particle. The  
 emission of a  $\beta$  particle is  
 associated with the emission of a  
 neutrino. The neutrino is a  
 very light particle, and it is  
 emitted in the same direction  
 as the  $\beta$  particle. The  
 neutrino is a fermion, and it  
 has a spin of  $\frac{1}{2}$ . The  
 neutrino is a lepton, and it  
 has a lepton number of 1.

The Best Cough Remedy is  
Wiggin's Cough Candy. Cures  
Croup, Whooping Cough, and  
all kinds of Coughs. Money refunded  
on benefit to every A. C. Cough  
& Bro., Whitehall and Retail Ag-  
ents. d.f.w. 3rd

I always keep your medicine  
Down a shelf; it is selling in  
great quantities here.

Wm. Mead, 101 E. 4th, and Wm.  
C. Smith, 112 Duane, Clerk  
of Dr. Baxter's Dispensary, Boston  
Mass., are the only agents who  
have advertised themselves  
with your bottle. N. D. Ke-  
ney, 40 N. Main, Boston, is  
another agent. He is a reliable  
man, for external use is equal  
to internal.
